

Nate's Puzzle

Where: Casino

Instructions

In this variety word puzzle, answers are six- or seven-letter words. Each letter comes from one of the six categories that each number belongs to, as well as the number itself. For example, the answer for 13 would use the letters representing 1-18, ODD, black, 2nd 12, column 1, and #13 itself. Seven-letter answers may use one of two additional letters, represented by 0 and 00 in the grid.
