

Monster

Where: Stop

As you near the end of the road, a crazed looking man wielding a sword comes up next to you. "I can't take these monsters any more!" He asks you to help him with one last hold.

For the answer to this puzzle, you'll need either the Deadly Rooms of Death Architect Edition or DRoD: Journey to Rooted Hold demo application from Caravel Games. The latter is preferable; you can complete this puzzle with just the demo.

Solve the Deadly Rooms of Death hold "The Puzzle Boat", available from <http://www.drod.net/forum/index.php>.
