Where: Mudhoney Flats

Boy I love doughnuts! Lots and lots of doughnuts! And I know the perfect place to get them.

**Instructions:** Doughnut clues are eight letters long, start somewhere along the doughnut and proceed clockwise or counterclockwise. Filling clues are all five-letters long, and consist of the four letters of the doughnut that do not overlap, and the doughnut hole. The grid is toric; doughnuts in the top row overlap doughnuts in the bottom row; doughnuts on the left overlap doughnuts on the right.
